WORKSHOP: Christine Haenen "Strictly Charcoal"
11am-1pm, Sun April 13

Christine's class is scheduled!

This workshop teaches ancient European shading techniques for charcoal, a fragile yet bold drawing medium. Charcoal has been used by European Masters for ages and it has the unique properties to transform your emotions onto paper. Charcoal, which consists of burned vine and/or willow branches can be both sharp and soft. This workshop is good for beginners, for those who have been away from their art activity for a while, for those with no experience with vine charcoal and/or for those who are interested in Master shading techniques. Come join us in this very pleasant workshop.

Materials: a box of vine & willow charcoal, ¼" diameter or thicker (in this class we are not using compressed charcoal), a kneaded rubber eraser, a chamois, paper stumps and/or tortillons and a sketchpad. You can use Newsprint and/or medium grade sketch paper. Minimum paper size for this course: 18x24. Questions about supplies or about the workshop, please contact deb3321@gmail.com <mailto:deb3321@gmail.com> or dchrsv@sbcglobal.net <mailto:dchrsv@sbcglobal.net>.

About Christine Haenen: Born and raised in the Netherlands, Christine obtained her MFA (equivalent) degree at the Jan Van Eyck Academy of Fine Arts in Maastricht, specializing in Painting and Monumental Design. She has made a name for herself as a portrait painter. Throughout the years she has taught at community colleges and at her own studio.

EXHIBITION: Lewis Mauk, Lithographs, Silk Screens and Other Cultural Artifacts

Opening 630 pm, Sat April 19
through May 18

deb3321 is pleased to present Lewis Mauk, Lithographs, Silk Screens and Other Cultural Artifacts

The single images of Lewis Mauk, through his keen, exquisite observation and expression, the common day object becomes heightened fact, undeniably present, an eternal moment. Some images are overlayed with rose thorns, wishbones, fortunes, horoscopes creating a multiplicity of meaning, a poetry; an exposure of the inner, subconscious darkness of the artist's self by the artist's own insistent light to realize an uneasy and intelligent beauty.

"I mine the personal for ideas. My practice is the cartography of the psyche. My subject matter is both index and evidence of obsessive compulsive behavior, prescriptive and self medicating and the matriarchal influences in my life. I use my work to search for answers and catharsis."

Lewis Mauk is a Los Angeles based artist whose work includes: printmaking, photography and sculpture. Lewis received his BFA in 1997 from the University of Tennessee and his MFA from Cal-Arts in 2000. Lewis has taught both photography and printmaking in schools throughout the Los Angeles

area including California Institute of the Arts, Otis College of Art and Design and Chapman University. Lewis exhibits in Los Angeles and is a member of the Elysian Valley Arts Collective.

Councilmember Huizar Announces Figueroa St Resurfacing Project

Saturday, April 5th - Sunday, April 6th

Figueroa St. between Buena Vista Ter. and York Blvd.

Figueroa Street between Buena Vista Terrace and York Boulevard will be resurfaced this weekend! The Bureau of Street Services (BSS) will begin the project on Saturday, April 5th and, barring weather delays, complete the project by Sunday, April 6th. On Saturday, the old asphalt will be removed. On Sunday, new asphalt will be laid.

Over this weekend, residents can expect the following impacts:

- Fewer lanes during the first two days while BSS profiles the street
- **BLOCK BY BLOCK FULL STREET CLOSURES WHILE RESURFACING IS TAKING PLACE ON SUNDAY, 4/6**
- No parking during posted hours
- Detours
- Some noise during working hours

Once resurfaced, the Department of Transportation will also re-stripe the crosswalks in the high-visibility continental crosswalk style.

Thank you for your understanding and patience during this project. Persons with mobility impediments and their caregivers can request assistance if the scheduled street work limits their use (including ingress or egress) of the public right of way. If you have questions or need to request an accommodation, contact the supervisor on the project site or call (213) 485-5561. TTD users, please use 711.

Councilmember Huizar Leads Effort to Increase Recycling

Councilmember Huizar introduced 2010 motion and led policy decision as former chair of Energy & Environment Committee

The Los Angeles City Council voted 12-1 Tuesday in favor of a plan to overhaul City trash collection in commercial buildings, apartments and condominiums in order to expand recycling in the City of Los Angeles and reduce pollution.

Councilmembers José Huizar and Paul Koretz introduced a motion in 2010 calling on the City of Los Angeles to expand the City's recycling collection to all customers and expand on the City's premium curbside recycling program for single-family homes.

As the former Chair of the Energy & Environment Committee (E & E), Councilmember Huizar led the policy decision making on the exclusive waste hauling franchise policy. The policy is supported by Don't Waste L.A., a group of more than 35 organizations led by the non-profit Los Angeles Alliance for a New Economy (LAANE) – other Don't Waste L.A. members include the Sierra Club and the Natural Resources Defense Council.

"After three years of intensive analysis and public input, Zero Waste LA will bring us cleaner trash trucks, more recycling, cost controls and superior customer service," said Councilmember José Huizar. "Franchise systems are widely used in other cities, and I am proud to have worked with my colleagues and our partners to tailor this program to fit Los Angeles. It's a winning formula for customers, the environment and the City of Los Angeles."

Once fully in place in early 2017, areas of the City will be exclusively served by haulers selected through a competitive bidding process in 11 zones. In return, haulers will have to meet high standards for clean trucks, efficient service, and greater recycling, which are largely absent in the commercial and multi-family sectors today.

The City of Los Angeles recycling services for single family homes is considered the premium curbside recycling program for any big city in the nation. Tuesday's vote means that recycling in commercial buildings, apartments and condos can now be more in line with the City run curbside service.

A procedural second reading vote will occur next week with just eight votes needed for adoption. For more information, please contact Councilmember Huizar's Northeast LA field office at (323) 254-5295.

5 **NORTHEAST CERT COMMUNITY MEETING**April 27

Sat Apr 5, 2014 10:44 pm (PDT) . Posted by: [asncaalert](#)

A CERT community meeting (open to all residents) will be held on Sunday, Apr 27th from 9-11m

"Northeast LA Local Hazards Assessment, Emergency Response Training, and Developing a Community Emergency Plan: Why & How to Get Involved in CERT"

with Special Guests of Honor

LAFD Batt 2 Chief Abarca

LAFD Batt 2 Chief Spence

Title: CERT Community Mtg (Batt 2/Northeast LA)

When: Sun, April 27th, 2-4pm

Where: Eagle Rock City Hall Bldg, 2035 Colorado Blvd, LA 90014

Audience: Open to the public (anyone interested in disaster survival and/or community emergency response activities)

Cost: Free

This public meeting hosted by LAFD CERT Battalion 2* (Northeast LA) is open to all LA residents who are interested in disaster survival and/or learning how to be prepared for the next major emergency. A major goal of CERT community meetings is to spark interest in the program and to encourage more people to sign up aattend LAFD's free CERT training program.

During this meeting, we will look at specific local Northeast hazards, including the York Blvd fault, liquefaction & landslide zones, and a high-pressure underground natural gas pipeline. Local risk assessment and hazard analyses forms the foundation of a community emergency plan and results a prioritized list of issues to address (ie. areas that we anticipate will have more damage and injuries. Pre-defining safe zones such as emergency villages as well as defining areas of potential danger are really the first two steps in the development of a community emergency plan.

The generation of a local community emergency plan for every neighborhood in Battalion 2* is one of

our goals for the next 2-3 years. This year we will start with the communities of Monterey Hills, Hermon, and El Sereo. Each neighborhood will customize their own plan from an easy-to-use, award-winning template which will be available at the meeting.

We will also discuss upcoming 2014 Northeast LA CERT activities, including a Search &* Rescue drill in May, refresher training and a tri-community Shakeout Drill for all residents in October 2014.

Please direct any questions to Mark Legassie, LA CERT Battalion 2 Coordinator, 323-895-6275 or marklegassie@gmail.com <mailto:marklegassie@gmail.com>

See you on the 27th! Don't forget to ring your family and friends!

* CERT Battalion 2 communities include:

Eagle Rock
Highland Park
Hermon
Monterey Hills
Lincoln Heights
Arroyo Seco
El Sereno
Glassell Park
Atwater Village
Mt. Washington
Sycamore Grove

6 SMALL LOT SUBDIVISION HOUSING DEVELOPER DOES THE OLD “BAIT-AN

Sat Apr 5, 2014 10:46 pm (PDT) . Posted by: [asncaalert](#)

Thursday, April 3, 2014 <http://atwatervillagenews.blogspot.com/2014/04/small-lot-subdivision-housing-developer.html> <http://atwatervillagenews.blogspot.com/2014/04/small-lot-subdivision-housing-developer.html>

Santa Monica based housing developer, Rethink Development, is now seeking to increase the overall height and residential density of their 3-story development at 3376 Glendale Blvd. The housing developer is using the City's Small Lot Subdivision Ordinance to subdivide the 9716sf lot into 7 smaller parcels, 6 residential and 1 commercial.

Rethink Development once sought to subdivide the lot into 9 smaller parcels, 8 residential and 1 commercial, but that proposal was widely opposed by the community and Atwater's Neighborhood Council. In November 2013 Rethink Development returned to the community with an "improved" proposal <http://www.theeastsiderla.com/2013/11/revised-atwater-housing-project-plans-win-support-of-neighborhood-council/> but made no mention of the increased height or residential density. They are now seeking to increase the building height to 32.9 feet in lieu of the 30 feet permitted and allow higher residential density than what is permitted in a RD1.5 Zone (5 units with 1500 per unit lot area and 1 unit with an 819 feet of lot area).

A public hearing will be held on Wednesday, April 9th, 2014. If you are unable to attend you can submit testimony prior to the hearing. Written communications may be mailed to the Los Angeles City Planning Department, Expedited Processing Section, 200 N. Spring Street, Room 721, Los Angeles, CA 90012 (attention: Daryll Mackey) or e-mailed to daryll.mackey@lacity.org <mailto:daryll.mackey@lacity.org>. Please include the Case No.: VTT-72218-SL in all communications.
